# About SSSA

In 1983, the Small School Districts' Association (SSDA) was formed to advocate for the concerns and welfare of small school districts in California and ensure that their unique needs are protected as it relates to funding equity, waivers, and legislation. SSSA began with four member districts and has grown to a membership of over 350 small and mid-size districts. The SSSA remains today a non-profit association.

This brochure provides a summary of services that the SSSA currently provides and information on how your business can actively participate in the Small School Districts' Association.

## SSDA Mission Statement & Goals

The mission of the Small School Districts' Association is to provide relevant information and proactive assistance to small school district governing boards and superintendents through legislative advocacy, collaboration, professional development, and support services.

### SSDA Goals:

1. To sponsor an effective legislative program that supports and responds to the unique needs of all small school districts: specifically, to protect and increase small school district funding and ensure that the special needs of small school districts are reflected in waivers, exemptions and other appropriate legislative provisions.
2. To strengthen, support and maintain an SSSA state office with SSSA employed staff reporting to the Executive Director, while increasing communication with the Executive Committee.
3. To strengthen relationships with elected officials including superintendents of county offices of education, state education organizations, state agencies and other professional associations through collaborative activities such as direct contact, joint professional development, and informational workshops while maintaining the SSSA's identity as an organization.
4. To provide SSSA participation opportunities for all small school district superintendents, administrators, governing board members and Associate Members, with a focus on new superintendents.
5. To expand the SSSA communications through e-mail, fax, and the SSSA website newsletter.
  - The communications should include networking opportunities for superintendents, district staff and trustees.
  - The communication system should include use of workshops, conferences, meetings, webinar's and other means of professional development information, with specific attention to improving student achievement.
6. To develop high priority support services that will help small school district superintendents enhance educational performance and reduce operating costs.

# Associate Membership Benefits

The Small School Districts' Association (SSDA) is comprised of over 600 members including school districts, county offices of education and associated business members.

Our primary membership base consists of greater than 350 districts in California with fewer than 2,500 students. The Association also includes school districts with fewer than 5,000 students.

By becoming a SSDA Associate Member, your company gains direct access to the superintendents and trustees in these districts through advertising, participation at conferences, regional meetings and various sponsorship opportunities.

SSDA works continuously to provide new and innovative opportunities that are beneficial to both our district and business associates. These range from assisting member districts in finding specific products and services to expanding our website to include links to associates sites. Our staff looks forward to working with you to expand your business marketing success with small school districts.

## SSDA Newsletter Rates

The Small School Districts' Association publishes a newsletter five times per year. The newsletter is posted on the website and mailed to the SSDA District Members and Associate Members. It includes special notifications, educational news pertinent to small school districts, legislative updates, news about new members and the SSDA Community, legislative watch, and updates about our Superintendent Help Desk.

Limited advertising space is available in the newsletter on a first-come, first-serve basis. Therefore, it is very important to reserve space in the issue you desire well ahead of the publishing schedule (below) to coincide with your marketing efforts.

### 2011 - 2012 Publishing Deadlines
